SUMMARY

I am Muhammad Junaid, a fullStack developer with a passion for creating interactive and responsive web applications. I have strong skills in HTML, CSS, JavaScript ES6, React.js, Next.js, Node.js And MongoDB and have worked on several personal projects that showcase my ability to design visually appealing and user-friendly interfaces. I am eager to apply my skills in a professional environment and continue learning in the field of front-end development.

EXPERIENCE

React & Next Development

I have hands-on experience using React.js & Next.js to create component-based applications with a focus on reusable UI components and state management. I also incorporate Tailwind CSS to streamline styling and enhance the visual appeal of my projects.

Front-End Projects

I have developed multiple personal projects that showcase my expertise in creating dynamic user interfaces using HTML, CSS, JavaScript ES6, and React.js. Notable projects include an e-commerce website, a Todo List app, and HM Mart, demonstrating my ability to build responsive and user-friendly web applications.

Next Full-Stack Projects

I have built full-stack projects using Next.js, Tailwind CSS, Node.js, and MongoDB, including a blog platform and a product website. These showcase my skills in both frontend and backend development, API integration, and responsive UI design.

API Integration

I am skilled in integrating APIs to fetch and display data dynamically within applications, improving interactivity and user experience.

Version Control

I actively use Git and GitHub for version control, allowing me to manage and collaborate on projects efficiently.

EDUCATION

Bachelor of Arts (B.A)

Allama Iqbal Open University

2021 - 2023 Hangu, Peshawar

Diploma of Information Technology (DIT)

The Nation English Language & Computer Academy

2022 - 2023 Hangu, Peshawar

MY OPEN-SOURCE WORK

Active GitHub Contributor

I actively contribute to open-source projects on GitHub, collaborating with other developers to enhance code quality, fix bugs, and add new features. My contributions reflect my problem-solving skills and ability to work effectively in a team environment.

Personal Projects

I have published several personal projects on GitHub, where I continuously improve my code and share it with the community. These projects include front-end applications built with HTML, CSS, JavaScript, React.js and Next.js, focusing on best practices and clean, maintainable code.
